

MUHAMMAD SHOAIB

MERN STACK DEVELOPER | FULL STACK DEVELOPER

Bahawalpur, Pakistan | 0308-8923063 | shoaiballahbakhsh@gmail.com
Linkedin: [linkedin.com/in/developershoaib/](https://www.linkedin.com/in/developershoaib/) | Portfolio: developershoaib.vercel.app

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building web applications and production features using MongoDB, Express.js, React.js, and Node.js. Experienced in developing RESTful APIs, integrating frontend applications with backend services, designing database schemas, implementing authentication and role-based access control, and troubleshooting application issues. Worked on real-world e-commerce, marketplace, and logistics platforms and collaborated with developers to deliver maintainable and reliable software. Strong foundation in JavaScript, TypeScript, databases, Git, API integration, and problem solving, with a strong interest in learning modern development practices.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

MERN Stack: MongoDB, Express.js, React.js, Node.js

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, WebSocket

Databases: MongoDB, PostgreSQL, MySQL, Firebase Firestore

Database Skills: Schema Design, Indexing, Aggregation, Query Optimization, Data Modeling

Tools: Git, GitHub, Docker, Redis, BullMQ, CI/CD, Vercel

Integrations: Stripe, Firebase, OpenAI API, Google Maps API, Cloudinary

Practices: Clean Code, API Design, Git Branching, Code Reviews, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer | Evonicsoft

May 2026 – Present | Lahore, Pakistan | On-site

- Develop responsive web applications using React.js and TypeScript.
- Build reusable UI components and integrate frontend applications with REST APIs.
- Work with backend services to consume APIs and implement application features.
- Troubleshoot frontend issues and improve application usability and performance.
- Follow Git-based development workflows and collaborate with team members on feature development.

Full Stack Engineer | PT Express

Jan 2026 – May 2026 | Remote | International Client

- Developed features for a full-stack logistics management platform using React.js, Node.js, Express.js and databases.
- Built and integrated RESTful APIs for shipment, user, driver and logistics-related workflows.
- Worked with MongoDB and PostgreSQL for data modeling, schema design and application queries.
- Implemented authentication, authorization and role-based access control using JWT.
- Integrated real-time and background processing features using WebSocket, Redis and BullMQ.
- Collaborated with frontend, backend and mobile developers to define and integrate API contracts.

Associate Software Engineer | Infinite Market Solutions

Mar 2025 – Jan 2026 | Bahawalpur, Pakistan

- Developed full-stack web applications using React.js, Node.js, Express.js and MongoDB.
- Built and integrated RESTful APIs for e-commerce and marketplace applications.
- Designed MongoDB schemas and worked with indexing, aggregation and query optimization.
- Implemented authentication, role-based access and secure API workflows.
- Integrated third-party services including Stripe, Firebase, WebSocket and OpenAI API.
- Used Git and GitHub for version control, feature development and collaborative workflows.

Frontend Developer | Skill Evokers

May 2024 – Mar 2025 | Bahawalpur, Pakistan

- Developed responsive web interfaces using React.js, JavaScript and Tailwind CSS.
- Integrated frontend applications with REST APIs and backend services.
- Implemented responsive layouts from design requirements and improved user experience across devices.
- Worked with Git and followed team development practices under senior developer guidance.

SELECTED PROJECTS

PT Express — Logistics Management Platform

Technologies: React.js, React Native, Node.js, Express.js, MongoDB, PostgreSQL, Redis, BullMQ, Docker

Developed features for a logistics platform handling shipments, users, drivers and tracking workflows; built REST APIs and integrated them with React dashboards and React Native applications; worked with database structures, authentication, role-based access control and background processing.

Rixdu — UAE Marketplace Platform

Technologies: React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs

Developed marketplace functionality using React.js and Next.js; integrated REST APIs and collaborated with backend developers on API contracts; implemented responsive interfaces and reusable components.

Origins by the Sea — E-commerce Platform

Technologies: React.js, Next.js, Node.js, MongoDB, Stripe, Firebase

Developed an e-commerce platform with authentication and checkout functionality; integrated Stripe payments and Firebase authentication; implemented API validation and error handling; deployed using Vercel.

EDUCATION

Bachelor of Science in Computer Science

The Islamia University of Bahawalpur | Jan 2023 – Jan 2027 | CGPA: 3.85

Intermediate — ICS

Government Graduate College, Baghdad Road, Bahawalpur | 1048 / 1100 | 95%
